About the College: Geethanjali College of Engineering and Technology (GCET) was established in the year 2005 with the sole objective to provide access to affordable and quality technical education to the youth of our nation. The college is well-equipped with cutting edge infrastructural facilities and modern laboratories. It has highly competent and dedicated faculty who aim at holistic development of the students. The college has been recognized as an R&D Centre by Scientific and Industrial Research Organization (SIRO). The college offers undergraduate programs in engineering branches, namely, Civil Engineering, Computer Science Engineering (CSE), CSE-AIML (Artificial Intelligence & Machine Learning), CSE-DS (Data Science), CSE-CS (Cyber Security), CSE-IoT (Internet of Things), Electrical and Electronics Engineering, Mechanical Engineering, Electronics and Communication Engineering, and postgraduate programs in MBA and M. Tech in Computer Science Engineering. The college has been conferred “Autonomous” status by UGC since 2016. All eligible UG Programmes are accredited by NBA. GCET is accredited with “A+” grade by NAAC in 2022 and certified by ISO 9001:2015. The College has executed research projects worth 10 million Indian Rupees funded by DRDO and DST.

About The Department: The Department of Civil Engineering started functioning from the year 2014 with a B. Tech program of 120 students. The department is presently headed by Prof. V. Abdul Raffi, Who has more than 28 years of teaching experience, out of which 10 years of experience in abroad. The department has well qualified, experienced and committed faculty for teaching, research and consultancy works. Four of the faculty members are PhD degree holders from prestigious Institutions and six faculty members are pursuing PhD in different specialization. All other faculty members are post graduates in engineering or technology from reputed institutions and University Colleges. Good numbers of our students have been getting placements from the campus in various core and software companies.

About the event: On the occasion of National Concrete day, the Structural Engineering specialization of Department of Civil Engineering is organizing A National level Event for students of pursuing B. Tech in Civil Engineering from all over the India. A Technical event is planned on 09 September 2023, which is targeted to prepare Self Compacting Concrete (SCC) as per European Federation of National Associations Representing for Concrete (EFNARC) specifications to understand the significance of SCC in the present and future construction activities. **The materials and equipments required will be supplied by the college.**

A brief about the event: The property of fresh concrete measured in terms of Slump flow should be in the range of 650- 850 mm, without any type of segregation of the ingredients. The highest slump flow obtained from among all the participating groups will be rewarded. Participants are expected to utilize ‘flow table experiment set up only’ for this purpose.
